### Creative Audio Director (MA)

Apr 2020 — Jul 2021 | Fachhochschule Dortmund

## Sound designer

Sep 2012 — Jul 2017 | GTR

---

### About

I am front-end developer working with Vue / Nuxt with expertise in UX/UI design.

In my work, I use a product-oriented approach and always start by understanding the task. I ask clarifying questions, and if I see that something can be improved, I suggest options. I constantly develop in my profession: I try new technologies, delve into documentation, follow experts on YouTube, and read Reddit. In my free time, I make hobby projects to learn Laravel and play drums.
