Summary

Frontend developer with 2 years of experience. Main stack: Vue, Nuxt, Astro, and WordPress.
I have expertise in UX/UI design, with an understanding of areas where improved user experience can benefit the business and where to focus my efforts.

Skills

Vue 3, Nuxt, Pinia, TypeScript, TailwindCSS, Sass, BEM Methodology, REST API, Backend for Frontend, Astro Framework, GSAP, Git, GitHub, Figma, PHP, WordPress, English — B2, German — B2

Work Experience

Pharmaceutical Cosmetic LLC

Front-end Developer

Full-time, Feb 2023 — Present

Responsibilities:
- Full technical support for the company's web project development (analyzing business tasks, selecting the optimal tech stack, creating technical specifications, decomposition, development, implementation, and documentation).
- Support, refactoring, and adding new features to the company's existing projects.
- Integration of projects with external systems such as Bitrix24, 1C, YooMoney, and others.
- UX/UI design, including planning and enhancing user experience based on web analytics data.
- Collaboration with the marketing team: PM, SMM manager, marketer, and content manager.

Achievements:
- Migrated the company's main website to Nuxt and Headless WordPress, resulting in a more than 3x increase in page loading speed, leading to top positions in relevant search results.
- Designed, developed, and launched a website for a new cosmetics brand, enabling quick creation of dynamic marketing pages for new products via the admin panel.
- Transferred a landing page for training event registrations from Tilda to Astro, doubling page loading speed on mobile devices and adding version control capabilities.
- Developed a unified design style for the company's online projects.

Tech stack: Vue 3, Nuxt, SSR, Vite, TypeScript, JavaScript, Git, Github Actions, Astro, WordPress, Webpack, REST API, Tailwind CSS, Sass, GSAP, vee-validate, Zod, nodemailer, nodeJS, PM2, Figma

ACE-RU LLC

Front-end Developer

Contract, Apr 2024 — Jun 2024

Responsibilities:
- Full project management: client interviews, understanding the requirements, briefing the UX/UI designer and creating technical specifications, presenting the design and the final website.
- Responsive, cross-browser website layout using WordPress as the CMS.

Tech stack: JavaScript, Sass, Vite, WordPress, PHP.

Education

Interface Designer

Jun 2022 — Feb 2023 | Yandex Practicum

Creative Audio Director (MA)

2020 – 2022 | Fachochschule Dortmund

- Got an International Sound Award 2022 as a group team-lead for a exhibition audioguide project.

Sound Designer

2012 – 2017 | Litovchin Institute of Film and TV
